

Panaspeed

PANAVISION Lenses

Panaspeed spherical primes are a high-speed, large-format companion to 35mm-format spherical [Primo](#) optics. Offering excellent veiling-glare resistance, a blend of technical aberration correction, and artistic nuances in the form of select aberration inclusion, Panaspeeds also incorporate improved features including no blue line, better close focus, anti-breathing control, faster aperture, and greater field illumination.

Metric Imperial

Focal Length	T-Stop	Close Focus (in)	Weight (lbs)	Length (in)	Front Diameter (in)
17	1.4	17	6.1	7.2	4.44
21	1.4	14	-	6.6	4.44
24	1.4	14	5	6	4.44
29	1.4	15	5	5.9	4.44
35	1.4	16	4.5	5.7	4.44
40	1.4	16	4.5	5.7	4.44
50	1.4	19	4.8	5.7	4.44
